**Note:**

\* The interim Dehcho Land Use Plan may be coming to the main table also in 2010, although it is unclear which date that will be ready for main table review.

\*\* There are resource management chapters which have yet to be identified due to ongoing internal federal work. It is anticipated they may be negotiated at the main table sometime in 2010. These also include the Subsurface Resources and Mineral Royalties chapters.

\*\*\* Although Governance is identified in April, Canada cannot guarantee that it will be in a position to discuss it at that time.
